INDEPENDENT AUDITOR'S REPORT

**TO THE MEMBERS OF
KAJARIA PLYWOOD PRIVATE LIMITED**

Report on the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **KAJARIA PLYWOOD PRIVATE LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the loss (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis For Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements

Emphasis of Matter

We draw attention to the following matter in the Notes to the financial statements:

1. We draw attention to Note No. 33 of the standalone Ind AS financial statements regarding the impact of COVID-19 pandemic on the Company. Management is of the view that there are no reasons to believe that the pandemic will have any significant impact on the ability of the company to continue as a going concern. Nevertheless, the impact in sight of evolvement of pandemic in future period is uncertain.

Our opinion is not modified in respect of this matter.

Information Other than the Standalone Ind AS Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the Director's report, Corporate Governance report, Business responsible report and Management Discussion and Analysis of Annual report, but does not include the Standalone Ind AS Financial Statements and our report thereon. The Directors report, Corporate Governance report, Business responsible report and Management Discussion and Analysis of Annual report is expected to be made available to us after the date of this auditors' report.

Our opinion on the Standalone Ind AS Financial Statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS Financial Statements, our responsibility is to read the other information identified above when it becomes available to us and, in doing so, consider whether the other information is materially inconsistent with the Standalone Ind AS Financial Statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

When we read such other information as and when made available to us and if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate

accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error audit procedures, design and perform responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Ph.: 011-47011850, 51, 52, 53
E-Mail : admin@opbco.in
Website : www.opbco.in

2. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(l) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls
3. Evaluate the appropriateness of accounting policies used and the reasonable ness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and event s in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure I" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.;
 - e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure II". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended we have been informed that, no managerial remuneration has been paid/provided during the year by the company.

ANNEXURE- II TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

We have audited the internal financial controls over financial reporting of **KAJARIA PLYWOOD PRIVATE LIMITED** ("the Company") as of March 31, 2021 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence /we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Accounting Policies under Ind AS
Standalone financial statements of Kajaria Plywood Private Limited for the year ended 31-March-2021

1. Corporate information

KAJARIA PLYWOOD PRIVATE LIMITED ("KPPL" or "the company") is a private limited company domiciled in India and was incorporated on 27th September 2017. The company is subsidiary company of Kajaria Ceramics Ltd. The registered office of the Company is located at J-1/B-1 Extension, Mohan Coop Ind Estate, Mathura Road, New Delhi.

The company is engaged in trading of Plywood & Block Board. The company started its operations in the year 2018 with trading division Gandhidham (Gujarat) and it also has trading division at Rudrapur (Uttarakhand).

The financial statements of the company for the year ended 31st March 2021 were authorized for issue in accordance with a resolution of the directors on 09th June, 2021.

2. Significant accounting policies

2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules, 2016.

The financial statements have been prepared on a historical cost basis, except for the certain assets and liabilities which have been measured at different basis and such basis has been disclosed in relevant accounting policy.

The financial statements are presented in INR and all values are rounded to the nearest lacs (INR 00,000), except when otherwise indicated.

2.2 Significant accounting policies

a. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset/liability is treated as current when it is:

- Expected to be realised or intended to be sold or consumed or settled in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised/settled within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other assets and liabilities are classified as non-current.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

Accounting Policies under Ind AS

Standalone financial statements of Kajaria Plywood Private Limited for the year ended 31-March-2021

b. Property, plant and equipment

i) Tangible assets

Property, plant and equipment are stated at cost [i.e., cost of acquisition or construction inclusive of freight, erection and commissioning charges, non-refundable duties and taxes, expenditure during construction period, borrowing costs (in case of a qualifying asset) upto the date of acquisition/ installation], net of accumulated depreciation.

When significant parts of property, plant and equipment (identified individually as component) are required to be replaced at intervals, the Company derecognizes the replaced part, and recognizes the new part with its own associated useful life and it is depreciated accordingly. Whenever major inspection/overhaul/repair is performed, its cost is recognized in the carrying amount of respective assets as a replacement, if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the statement of profit and loss.

The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Property, plant and equipment's are eliminated from financial statements, either on disposal or when retired from active use. Losses/gains arising in case retirement/disposals of property, plant and equipment are recognized in the statement of profit and loss in the year of occurrence.

Depreciation on property, plant and equipment's are provided to the extent of depreciable amount on the straight line (SLM) Method. Depreciation is provided at the rates and in the manner prescribed in Schedule II to the Companies Act, 2013.

The residual values, useful lives and methods of depreciation/amortization of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

c. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period in which they occur.

d. Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss.

e. Inventories

Items of inventories are measured at lower of cost and net realizable value after providing for obsolescence, wherever considered necessary. Cost of trading and other products are determined on weighted average basis.

Accounting Policies under Ind AS
Standalone financial statements of Kajaria Plywood Private Limited for the year ended 31-
March-2021

g. Revenue recognition:

Revenue is recognised on transfer of promised goods and services to the customers on performance of obligation at the price that reflects the consideration to which the Company expected to receive on performance of obligation, regardless of when payment is being made. Revenue from operations includes sale of goods and adjusted for discounts. Interest income is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

h. Foreign currency transactions

The Company's financial statements are presented in INR, which is also its functional currency.

Foreign currency transactions are initially recorded in functional currency using the exchange rates at the date the transaction.

At each balance sheet date, foreign currency monetary items are reported using the exchange rate prevailing at the year end.

Exchange differences arising on settlement or translation of monetary items are recognised in statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

i. Taxes on income

Current tax

Current tax is measured at the amount expected to be paid/ recovered to/from the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised directly in equity/other comprehensive income is recognised under the respective head and not in the statement of profit & loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets are offset against current tax liabilities if, and only if, a legally enforceable right exists to set off the recognised amounts and there is an intention either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

Accounting Policies under Ind AS

Standalone financial statements of Kajaria Plywood Private Limited for the year ended 31-March-2021

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date. Tax relating to items recognized directly in equity/other comprehensive income is recognized in respective head and not in the statement of profit & loss.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and is adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

j. Employee benefits

All employee benefits that are expected to be settled wholly within twelve months after the end of period in which the employee renders the related services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, etc. are recognized as expense during the period in which the employee renders related service.

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered the service entitling them to the contribution.

The Company's contribution to the Provident Fund is remitted to provident fund authorities and are based on a fixed percentage of the eligible employee's salary and debited to Statement of Profit and Loss.

k. Provisions, Contingent liabilities and Contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability is disclosed in the case of:

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- a present obligation arising from past events, when no reliable estimate is possible

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

• Earnings per share

Basic earnings per equity share is computed by dividing the net profit after tax attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing adjusted net profit after tax by the aggregate of weighted average number of equity shares and dilutive potential equity shares during the year.

• Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand, cheques on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

Accounting Policies under Ind AS
Standalone financial statements of Kajaria Plywood Private Limited for the year ended 31-
March-2021

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

- **Fair value measurement**

The Company measures financial instruments such as derivatives and certain investments, at fair value at each balance sheet date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

- **Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a) Financial assets

Classification

The Company classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flows characteristics of the financial asset.

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement financial assets are classified in below categories:

- **Financial assets carried at amortised cost**

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Accounting Policies under Ind AS

Standalone financial statements of Kajaria Plywood Private Limited for the year ended 31-March-2021

- **Financial assets at fair value through other comprehensive income**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.

- **Financial assets at fair value through profit or loss**

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Derecognition

A financial asset is primarily derecognized when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Impairment of financial assets

The Company assesses impairment based on expected credit losses (ECL) model for measurement and recognition of impairment loss on the financial assets that are trade receivables or contract revenue receivables and all lease receivables.

(b) Financial liabilities

Classification

The Company classifies all financial liabilities as subsequently measured at amortized cost, except for financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

- **Financial liabilities at amortised cost**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

- **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Accounting Policies under Ind AS

Standalone financial statements of Kajaria Plywood Private Limited for the year ended 31-March-2021

Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the statement of profit and loss.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

- Unless specifically stated to be otherwise, these policies are consistently followed.

2.3 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities at the date of the financial statements. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In particular, the Company has identified the following areas where significant judgements, estimates and assumptions are required. Further information on each of these areas and how they impact the various accounting policies are described below and also in the relevant notes to the financial statements. Changes in estimates are accounted for prospectively.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

Contingencies

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal, contractor, land access and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgments and the use of estimates regarding the outcome of future events.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market change or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Accounting Policies under Ind AS

Standalone financial statements of Kajaria Plywood Private Limited for the year ended 31-March-2021

(a) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

(b) Defined benefit plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(c) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

(d) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgments in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Notes to financial statement for the year ended 31 March 2021

Note -23
Earning per share

Basic and Diluted EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the company by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	31 March 2021	31 March 2020
Profit attributable to equity holders of the Company:		
Continuing operations	(1053.15)	(1023.50)
Discontinued operations	-	-
	<u>(1053.15)</u>	<u>(1023.50)</u>
Profit attributable to equity holders for basic earnings	-	-
Dilution effect	(1053.15)	(1023.50)
Profit attributable to equity holders adjusted for dilution effect	<u>(1053.15)</u>	<u>(1023.50)</u>
Weighted Average number of equity shares used for computing Earning Per Share (Basic & Diluted) *	9,900,000	9,384,153
* There have been no other transactions involving Equity shares or potential Equity shares between the reporting date and the date of authorisation of these financial statements.		
Earning Per Share - Continuing operations		
Basic	(10.64)	(10.91)
Diluted	(10.64)	(10.91)
Face Value per equity share	10.00	10.00

Defined Contribution Plans - General Description

Retirement benefits in the form of provident fund, superannuation fund and national pension scheme are defined contribution schemes. The Company has no obligation, other than the contribution payable to the provident fund. The Company's contribution to the provident fund is Rs. 12.13 lacs (31 March 2020 :13.27 lacs)

Defined Benefit Plans - General Description

Gratuity:

The Company has a defined benefit gratuity plan. Gratuity is computed as 15 days salary, for every completed year of service or part thereof in excess of 6 months and is payable on retirement / termination / resignation. The benefit vests on the employee completing 5 years of service. The Company makes provision of such gratuity asset/liability in the books of account on the basis of actuarial valuation as per the projected unit credit method.

The following tables summarise the components of net benefit expense recognised in the statement of profit or loss and the funded status and amounts recognised in the balance sheet for the gratuity plan:

Changes in the present value of the defined benefit obligation are, as follows:

	31 March 2021	31 March 2020
Defined benefit obligation at the beginning of the year	3.61	2.99
Current service cost	3.54	2.35
Interest cost	0.22	0.21
Benefits paid	-	-
Actuarial (gain)/ loss on obligations - OCI	-0.20	-1.94
Defined benefit obligation at the end of the year	7.17	3.61

Changes in the fair value of plan assets are, as follows:

	31 March 2021	31 March 2020
Fair value of plan assets at the beginning of the year	-	-
Contribution by employer	-	-
Return on plan assets	-	-
Benefits paid	-	-
Expected Interest Income on plan assets	-	-
Actuarial gain/(loss) on plan asset	-	-
Fair value of plan assets at the end of the year	-	-

Reconciliation of fair value of plan assets and defined benefit obligation:

	31 March 2021	31 March 2020
Fair value of plan assets	-	-
Defined benefit obligation	7.17	3.61
Amount recognised in the Balance Sheet	7.17	3.61
Current	-	-
Non current	-	-

Amount recognised in Statement of Profit and Loss:

	31 March 2021	31 March 2020
Current service cost	3.54	2.35
Net interest expense	0.22	0.21
Amount recognised in Statement of Profit and Loss	3.76	2.56

Amount recognised in Other Comprehensive Income:

	31 March 2021	31 March 2020
Actuarial (gain)/loss - obligation	-0.20	-1.94
Amount recognised in Other Comprehensive Income:	-0.20	-1.94

The principal assumptions used in determining gratuity liability for the Company's plans are shown below:

	31 March 2021	31 March 2020
Discount rate	6.00%	7.00%
Future salary increases	5.00%	5.00%
Attrition Rate / Withdrawal Rate	20.00%	20.00%
Retirement age	58	58
Limit (Rs. in lakhs)	20.00	20.00

A quantitative sensitivity analysis for significant assumption as at 31 March 2021 is as shown below:

Gratuity Plan	Sensitivity level		Impact on DBO	
	31 March 2021	31 March 2020	31 March 2021	31 March 2020
Assumptions				
Discount rate	+1%	+1%	(0.29)	(0.14)
	-1%	-1%	0.31	0.15
Future salary increases	+1%	+1%	0.31	0.16
	-1%	-1%	(0.29)	(0.14)
Withdrawal rate	+1%	+1%	(0.22)	(0.14)
	-1%	-1%	0.23	0.14

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

Sensitivities due to mortality and withdrawals are insignificant and hence ignored.

Sensitivities as to rate of inflation, rate of increase of pensions in payments, rate of increase of pensions before retirement & life expectancy are not applicable being a lump sum benefit on retirement.

The following payments are expected contributions to the defined benefit plan in future years:

	31 March 2021	31 March 2020
Within next 12 months (next annual reporting period)	0.03	0.01
Between 2 and 5 years	1.99	0.34
Beyond 5 years	5.15	4.44
Total expected payments	7.17	4.79

The weighted average duration of the defined benefit plan obligation at the end of the reporting period is 17 (31 March 2020: 17).

Kajaria Plywood Private Limited**Notes to financial statement for the year ended 31 March 2021****Note -26****Dues to Micro and Small Enterprises**

The dues to Micro and Small Enterprises as required under the Micro, Small and Medium Enterprises Development Act, 2006 to the extent information available with the Company is given below:

Particulars	31 March 2021	31 March 2020
(a) The principal amount and the interest due thereon remaining unpaid to any supplier as at the end of each accounting year		
Principal amount due to micro and small enterprises	74.83	0.16
Interest due on above	-	-
(b) The amount of interest paid by the buyer in terms of section 16 of the MSMED Act 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year	-	-
(c) The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the MSMED Act 2006.	-	-
(d) The amount of interest accrued and remaining unpaid at the end of each accounting year.	-	-
(e) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the MSMED Act 2006	-	-

#The details of amounts outstanding to Micro and Small Enterprises under the Micro, Small and Medium Enterprises Development Act, 2006 are as per available information with the Company.

Terms and conditions of transactions with related parties

The transaction to and from related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured. There have been no guarantees provided or received for any related party receivables or payables. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

29. Financial risk management objectives and policies

The Company's principal financial liabilities, other than derivatives, comprise borrowings, trade and other payables, security deposits and others. The Company's principal financial assets include trade and other receivables, loans and cash and short-term deposits and loans.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's management oversees the management of these risks. The Company's senior management is reviewing financial risks and the appropriate financial risk governance framework. The Company's management ensure that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The management reviews and agrees policies for managing each of these risks, which are summarised below.

1. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk. Financial instruments affected by market risk include , deposits.

The sensitivity analyses of the above mentioned risk in the following sections relate to the position as at 31 March 2021 and 31 March 2020.

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets and liabilities of foreign operations. The analysis for contingent liabilities is provided in Note 24.

The following assumptions have been made in calculating the sensitivity analyses:

- The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial

A. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates. However the risk is very low due to negligible borrowings by the Company.

	Increase/decrease in basis points	Effect on loss before tax
	INR in lacs	
31-Mar-21		
INR	0.5	6.16
INR	-0.5	(6.16)
31-Mar-20		
INR	0.5	2.74
INR	-0.5	(2.74)

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

B. Foreign currency sensitivity

Foreign currency risk is the risk that the fair value of future cash flows of an exposure will fluctuate because of changes in exchange rates. Foreign currency risk sensitivity is the impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities. There is no foreign currency exposure as on balance sheet date.

The movement in the pre-tax effect on profit and loss is a result of a change in the fair value of derivative financial instruments not designated in a hedge relationship and monetary assets and liabilities denominated in INR, where the functional currency of the entity is a currency other than INR.

II. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions.

Credit risk from investments with banks and other financial institutions is managed by the Treasury functions in accordance with the management policies. Investments of surplus funds are only made with approved counterparties who meet the appropriate rating and/or other criteria, and are only made within approved limits. The management continually re-assess the Company's policy and update as required. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty failure.

A. Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit review and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored.

At the year end the Company does not have any significant concentrations of bad debt risk.

An impairment analysis is performed at each reporting date on an individual basis for major clients. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 33. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and operate in largely independent markets.

B. Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties.

III. Liquidity risk

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

	(Rs. In Lacs)					
	On demand	Less than 3 months	3 to 12 months	1 to 5 years	> 5 years	Total
Year ended						
31-Mar-21						
Borrowings	-	-	-	1,750.00	-	1,750.00
Trade payables	-	612.78	-	-	-	612.78
Other financial liabilities	204.74	-	-	-	-	204.74
	204.74	612.78	-	1,750.00	-	2,567.52
Year ended						
31-Mar-20						
Borrowings	-	-	-	1,145.00	-	1,145.00
Trade payables	-	67.16	-	-	-	67.16
Other financial liabilities	187.38	-	-	-	-	187.38
	187.38	67.16	-	1,145.00	-	1,399.54

IV. Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

The Company's marketing facilities are situated in different geographies. Similarly the distribution network is spread PAN India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021
(Amount in Rupees Lakh, unless otherwise stated)

Note: 30
Capital Management

The objective of the Company's capital management structure is to ensure that there remains sufficient liquidity within the Company to carry out committed work programme requirements. The Company monitors the long term cash flow requirements of the business in order to assess the requirement for changes to the capital structure to meet that objective and to maintain flexibility.

The Company manages its capital structure and makes adjustments to it, in light of changes to economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital, issue new shares for cash, repay debt, put in place new debt facilities or undertake other such restructuring activities as appropriate.

No changes were made in the objectives, policies or processes during the year ended 31 March 2021.

	At 31 March 2021	At 31 March 2020
Borrowings	1,750.00	1,145.00
Net debts A	1,750.00	1,145.00
Total Equity B	(1,719.41)	(666.45)
Gearing ratio (A/B)	(1.02)	(1.72)

Kajaria Plywood Private Limited

Notes to financial statement for the year ended 31 March 2021
(Amount in Rupees lacs, unless otherwise stated)

31. Leases

Operating lease commitments - Company as lessee

The Company has taken various commercial premises under operating leases. These leases have varying terms, escalation clauses and renewal rights. On renewal the terms of the leases are re-negotiated. Rent amounting to ₹3.97 lakhs (31 March 2020: 3.07 Lakhs) has been debited to the Statement of Profit and Loss during the year.

KAJARIA PLYWOOD PRIVATE LIMITED

OTHER NOTES ON ACCOUNTS

32. As at the end of the year the net worth of the company stands eroded and during the year the company has continued to incur cash losses. These conditions may cast doubt about the Company's ability to continue as a going concern. Nevertheless, the management have perception of revival of the company in subsequent years as the company is in its gestation period and management has considered the loss/erosion as aforesaid as temporary, financial statements have been prepared on going concern basis.

33. Impact of COVID-19 on the company

The SAARC-COV2 virus continues to spread globally including India, which has resulted in significant decline and volatility and disruption in economic/financial activities in global markets. Though the pandemic is still evolving and impact on working of the company is uncertain, management is of the view that looking into its nature of business and the products company is dealing in, and steps being taken to provide support by various means from the regulators/governments, there are no reason the believe that current crisis will have any significant impact on the ability of the company to maintain its normal business operations including the assessment of going concern for the company. However, the extent to which the pandemic will impact working of the company, which is highly uncertain.

34. Deferred Tax Asset/Liability

Deferred Tax arises because of difference in treatment between financial accounting and tax accounting, known as "Timing Differences". The tax effect of these timing differences is recorded as "Deferred Tax Assets" (generally items that can be used as a tax deduction or credit in future periods) and "Deferred Tax Liabilities" (generally items for which the company has received a tax deduction but has not recorded in the statement of income).

The deferred tax asset arising during the year has been set off to the extent of deferred tax liability and resulting Net Deferred Tax Asset has not been recognized in term of prudence norms and conservative view with regard to virtual certainty of profitability in future years.

35. In the opinion of Directors the value of realisation of current assets, loans & advances in the ordinary course of business will not be less than the amount at which they are stated in the balance sheet.
